HOBBIES AND INTERESTS

● **Music**

Music is one of the things that inspires me the most. Every genre from rap music to classical passing by rock and folk has an energy that inspires me in my work and my life as a whole.

I often attend to concert accompanied or on my own.

I also try to practice in some of instruments like drums, piano or singing at amateur level.

● **Climbing / Parkour**

"A healthy mind resides in a healthy body". I follow this expression every day because I deeply think that the quality of my work resides in my condition.
